Crisis – Definition

A crisis (plural: crises) (from the Greek κρίσις) may occur on a personal or societal level. It may be a traumatic or stressful change in a person's life, or an unstable and dangerous social situation, in political, social, economic, military affairs, or a large-scale environmental event, especially one involving an impending abrupt change. More loosely, it is a term meaning, a testing time' or ,emergency event'.

Etymologically the term crisis comes from Ancient Greek κρίσις -- krisis, “a separating, power of distinguishing, decision, choice, election, judgment, dispute”, κρίνω -- krinō, “I pick out, choose, decide, judge” (<http://en.wikipedia.org>).
